

"P" 11 (2022)

Albany, New York

September 28, 2022

TO: All Enforcement Agencies

SUBJECT: License Plate Stickers

Due to COVID-related production and supply chain delays for obtaining printing materials, please be advised that DMV has begun production and distribution of license plate stickers with two different watermarks within the same sticker year (see attached samples). Both versions of the stickers are valid and authentic.

A customer operating a vehicle or towing a trailer that displays one of these license plate stickers should have a corresponding registration document for proof of registration. Additionally, DMV suggests that law enforcement officers look up the plate number electronically to assist in determining the validity of the registration, especially for situations where the operator is not present, and the registration document cannot be presented.

Please share this information with appropriate members of your staff. Thank you.

Mark J.F. Schroeder
Commissioner
