New International Fuel Tax Agreement (IFTA) Credentials Required for 2027

All 2026 IFTA licenses and decals expire on December 31, 2026. The Tax Department will begin to issue 2027 IFTA licenses and decals in November and motor carriers may use them immediately. The 2027 IFTA decals are red with white lettering.

To allow motor carriers sufficient time to obtain their 2027 IFTA licenses and decals, and to properly display their 2027 IFTA decals, motor carriers may continue using their 2026 IFTA licenses and displaying their 2026 IFTA decals through **February 28, 2027**.

However, by March 1, 2027, every motor carrier **must**:

- have new 2027 IFTA licenses and decals for all qualified motor vehicles;
- replace the 2026 IFTA decals on each qualified motor vehicle with the 2027 IFTA decals; **and**
- carry a paper version (original or copy) or electronic image of the vehicle's 2027 IFTA license in each qualified motor vehicle.

Law enforcement and other officials **must** accept electronic images of an IFTA license (in addition to paper originals or paper copies) when motor carriers present them.

Motor carriers operating qualified motor vehicles without current IFTA licenses or without valid IFTA decals are in violation of the New York State Tax Law. Law enforcement and other officials may issue these motor carriers citations for traffic infractions and require them to pay fines. See New York State Tax Law §§ 1815(a)(1)(A)(ii), 1815(a)(2), and 1815(a)(3).

The requirement to obtain 2027 IFTA licenses and decals does **not** affect New York State fuel use tax trip permits. Trip permits are valid for the period shown on the permit.

For more information on IFTA, visit our website (search: *ifta).*
