TO: All Enforcement Agencies

SUBJECT: Freight Company Name Change

Con-Way Freight Inc. is an Indiana based carrier that has recently changed their name to "XPO Logistics Freight, Inc." We are in the process of working with them to have all the IRP registration changed to the new name of XPO Logistics Freight, Inc. However, due to the size of the fleet, it will take some time to get new registrations issued and installed in all the vehicles. Indiana is asking that in this transition time you continue to honor the registrations issued to Con-way Freight until the new registrations can be placed in the tractors and the tractors can have the name changed on the doors.

Please share this information with your staff. Thank you.
